Education

Maharaja Agrasen Institute Of Technology, Delhi
Electronics and Communication Engineering

Nov 2022 – Jun 2026
CGPA 7.094

Projects And Experience

Medium blog

- A Modern Full-Stack Application designed Medium blog using Node.js, Express.js, MongoDB, React + TypeScript, and Tailwind CSS to enable highly performant and scalable web application delivery for a global user base interested in seamless digital experiences.
- Spearheaded the implementation of serverless architecture with global edge deployment, significantly enhancing application speed and reliability, fostering efficient content delivery and low-latency interactions for users worldwide.
- Engineered type-safe full-stack development with React + TypeScript for a responsive and modern UI and MongoDB for the backend, empowering efficient and secure database interactions for robust data management. (Link)

Language Exchange Platform

- Developed a full-stack language exchange platform using React, Express.js, MongoDB, Tailwind CSS, and TanStack Query, enabling real-time and scalable user interactions.
- Implemented real-time messaging with typing indicators, emoji reactions, and group collaboration features.
- Built 1-on-1 and group video calls with screen sharing and recording, enhancing communication and learning experience.
- Integrated JWT authentication with protected routes and robust error handling for secure and reliable usage.
- Designed and integrated 32 unique UI themes to enhance personalization, inclusivity, and accessibility across cultures and languages. (Link)

Skills

Languages\$ C++, JavaScript , Typescript HTML, CSS, SQL,

Libraries, Frameworks and Databases : ReactJs, Node.js, Express.js, MongoDb, MySQL

Technologies\$ MERN Stack, REST API's, Data Analysis , Git/Github

Coursework: Object Oriented Programming, Data Structures and Algorithms, Computer Networks, Logical Reasoning,

Achievements

- Full Stack Web Development Virtual Intern at Diginique TechLabs x iHUB DivyaSampark, IIT Roorkee (Jul 2024 – Aug 2024). Completed a hands-on internship focused on full stack development. Built projects using HTML, Tailwind, JavaScript, React, Node.js, and MongoDB under expert mentorship.
- Solved 100+ problems on LeetCode.
